^ h   u ‰µ • t o   Map Dŝ)ownload and Instructions

- x Download and install Google Maps on your smartphone
- x Open sharable SU campus walkabout placemarks map by clicking on one of these web addresses or using the QR code.
    - o https://www.google.com/maps/d/edit?mid=1v9N91Ayt6gkc7zfQ6584hgYD0sS0wKcY&usp=sharing
    - o https://tinyurl.com/SUWalkabout

    - o
- x The Google Maps app should open and zoom to the placemarks (Red Icons) and route for the ^ h u ‰µ • t o   }µ š.
    - o Note: Changing the base layer to imagery makes the icons and route more visible.
- x You can follow the blue route to the suggested locations which are symbolized in Red and sequentially numbered.
- x Or you can click on a Red icon, and select Directions to see additional possible routes and the estimated time to arrival.
    - o Note: Be sure to select Walking directions on screen top.
    - o Also Note: Google will only give you a route on what it believes is a sidewalk!
    - o Also, Also Note: GPS doesn't work properly inside a building!
- x You can also click on the next Red icon and select Add Stop on screen bottom to construct a sequence of stops (or route). You can add as many stops as you like or simply navigate between each location.
- x Click Start to receive verbal directions from Google Maps.
- x Several placemarks have additional information available if you click the Red icon.
- x If the Purple icons and route disappear, reload the Walkabout map from the shared web address or QR code.
