Graduate Council Meeting Minutes Thursday, October 21, 2021 - ZOOM

- o Grad faculty were consulted and given a chance to offer feedback but graduate studies is still not front and center in the new image. Still seems very focused on undergraduates.
 - J. Strange She is one of the students used on the front pages but it doesn't identify her as a grad student.
 - J. Scott Will notify Sue Eagle and see if that can be updated to properly identify Jessica as a grad student.
- o T. Williamson I participated in focus groups and made sure to discuss the importance of graduate education, research and faculty research. Very disappointed with the current branding and it isn't a resource we can use for recruiting. Research page is OURCA with the only mention of grad students is the RAP grant.
- O C. Carayon There needs to be a strategy to make adjustments to the brand. Put back on November agenda
